BEACON
PUBLICATION

INTERNATIONAL JOURNAL OF HOLISTIC RESEARCH PARADIGMS (IJHR)

PRESENTED BY : RESEARCH BEACON PUBLICATION,
EUDOXIA EDUCATION PRIVATE LIMITED, MUMBAI, INDIA

ABOUT US:

In an era where information is abundant but meaningful knowledge is rare, Research Beacon Publication was born with a powerful conviction — that research should illuminate humanity, not remain confined behind financial or institutional barriers. Established in 2018 under the visionary initiative of Eudoxia Education Private Limited, and operating across Mumbai, Bangalore, and Guwahati, this international publishing house has steadily evolved into a platform where ideas are nurtured, discoveries are celebrated, and intellectual courage is rewarded.

Research Beacon Publication is more than a publisher. It is a promise — a promise that genuine scholarship will always find a voice.

From its inception, the mission was clear: to create a global academic ecosystem where knowledge flows freely and merit is the only currency that matters. Over the years, the publication house has released a substantial collection of ISBN-registered books, scholarly articles, and research chronicles across multidisciplinary domains. These works have reached international readers, researchers, and institutions, earning appreciation for their depth, originality, and commitment to intellectual integrity.

ABOUT US:

Every manuscript we publish carries a story — the story of late-night experiments, persistent data analysis, thoughtful literature reviews, and the unyielding passion of scholars determined to contribute something meaningful to the world. We believe that behind every research paper lies a human dream, and that dream deserves recognition.

At the heart of Research Beacon Publication stands its flagship international journal, the International Journal of Holistic Research Paradigms (IJHR). This journal was founded on a revolutionary principle: quality research should never be limited by financial constraints. With ZERO Article Processing Charges (APC), IJHR opens its doors to academicians, young researchers, and global scholars without demanding publication fees.

In a time when many journals impose high processing charges, IJHR represents academic inclusivity. It ensures that emerging scholars from diverse socioeconomic backgrounds have equal opportunity to publish their research with dignity and credibility. This commitment reflects our belief that knowledge grows when it is shared — not when it is restricted.

Research Beacon Publication stands on three enduring pillars: integrity, accessibility, and impact. Integrity ensures that every manuscript undergoes thoughtful editorial scrutiny. Accessibility ensures that publication remains open and inclusive. Impact ensures that research is not just theoretical, but transformative — contributing to industries, societies, and future generations.

We envision a world where research becomes a movement rather than a requirement. A world where scholars publish not merely to meet academic criteria, but to solve real-world problems, influence policy, drive innovation, and inspire new thinkers.

To every researcher holding an unpublished manuscript, to every academician refining a groundbreaking theory, to every scholar searching for a platform that values intellect over payment — Research Beacon Publication welcomes you.

SCOPE OF THE JOURNAL

The International Journal of Holistic Research Paradigms (IJHR) is a dynamic multidisciplinary platform dedicated to advancing integrative, impactful, and future-oriented research across diverse domains of knowledge.

The journal welcomes original research articles, review papers, case studies, conceptual frameworks, and innovative research communications that bridge disciplines and generate holistic solutions for real-world challenges.

SCOPE:

IJHR covers, but is not limited to, fields such as Artificial Intelligence and Emerging Technologies, Computer Science, Engineering and Device Innovation, Medical and Health Sciences, Microbiology, Environmental and Agricultural Sciences, Renewable Energy, Management and Entrepreneurship, Finance and Economics, Education, Law, Social Sciences, Humanities, Psychology, Public Policy, and Interdisciplinary Studies.

The journal particularly encourages research that integrates technology with social impact, promotes sustainable development, supports industry-oriented innovation, and contributes to global well-being.

Studies combining quantitative, qualitative, experimental, computational, and AI-assisted methodologies are highly valued.

By fostering cross-disciplinary dialogue and intellectual collaboration, IJHR aims to serve as a global knowledge hub where science, society, and innovation converge—empowering researchers to publish meaningful work that shapes industries, communities, and the future of humanity.

AUTHOR GUIDELINES:

International Journal of Holistic Research Paradigms (IJHR)

The International Journal of Holistic Research Paradigms (IJHR) welcomes high-quality scholarly contributions that advance multidisciplinary knowledge and offer meaningful solutions to real-world challenges. We invite Original Research Articles and Review Manuscripts from academicians, researchers, professionals, and innovators worldwide.

1. Types of Manuscripts

- Original Research Articles: Empirical, experimental, computational, analytical, or theoretical studies presenting novel findings.
- Review Articles: Comprehensive, critical, and integrative reviews synthesizing existing literature, identifying research gaps, and proposing future directions.

All submissions must be original, unpublished, and not under consideration elsewhere.

2. Manuscript Length & Formatting

- Page Limit: 10–16 pages (including tables, figures, and references).
- Font: Times New Roman, 12 pt
- Line Spacing: 1.5
- Margins: 1 inch (2.54 cm) on all sides
- File Format: MS Word (.doc/.docx)

3. Manuscript Structure

Title Page

- Concise and informative title
- Full name(s) of author(s)
- Institutional affiliation(s)
- Corresponding author details (email & contact)

Abstract (150–250 words)

- Background, objective, methodology, key findings, and conclusion
- 4–6 keywords

Main Body

For Original Articles:

- Introduction
- Literature Review
- Methodology
- Results
- Discussion
- Conclusion & Future Scope

For Review Articles:

- Introduction
- Thematic/Conceptual Framework
- Critical Analysis & Synthesis
- Research Gaps
- Conclusion & Future Directions

4. Referencing Style

All manuscripts must strictly follow the APA (7th Edition) referencing style for in-text citations and reference lists. Authors are responsible for accuracy and completeness of references.

5. Tables, Figures & Illustrations

- Must be clear, labelled, and cited within the text
- Provide captions below figures and above tables
- High-resolution images are recommended

6. Ethical Standards

- Manuscripts must adhere to academic integrity and plagiarism policies (below 15% plagiarism will be considered).
- Proper acknowledgment of funding sources (if any) must be included.
- Human or animal research must mention ethical approval details.

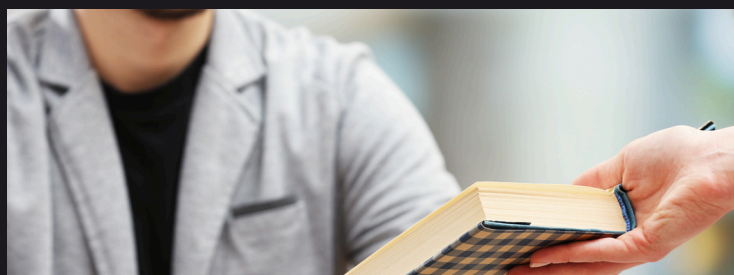

7. Submission & Review Process

- Manuscripts undergo double blind peer review for quality, originality, and relevance.
- Authors may be requested to revise based on reviewer feedback.
- Final acceptance is subject to editorial approval.

8. Publication Policy

- ZERO Article Processing Charges (APC).
- Open and inclusive access to knowledge dissemination.
- Copyright remains with the author(s), with publication rights granted to IJHR.

IJHR is committed to fostering rigorous, ethical, and impactful research. We encourage authors to submit manuscripts that are innovative, interdisciplinary, and capable of contributing meaningfully to academia, industry, and society.

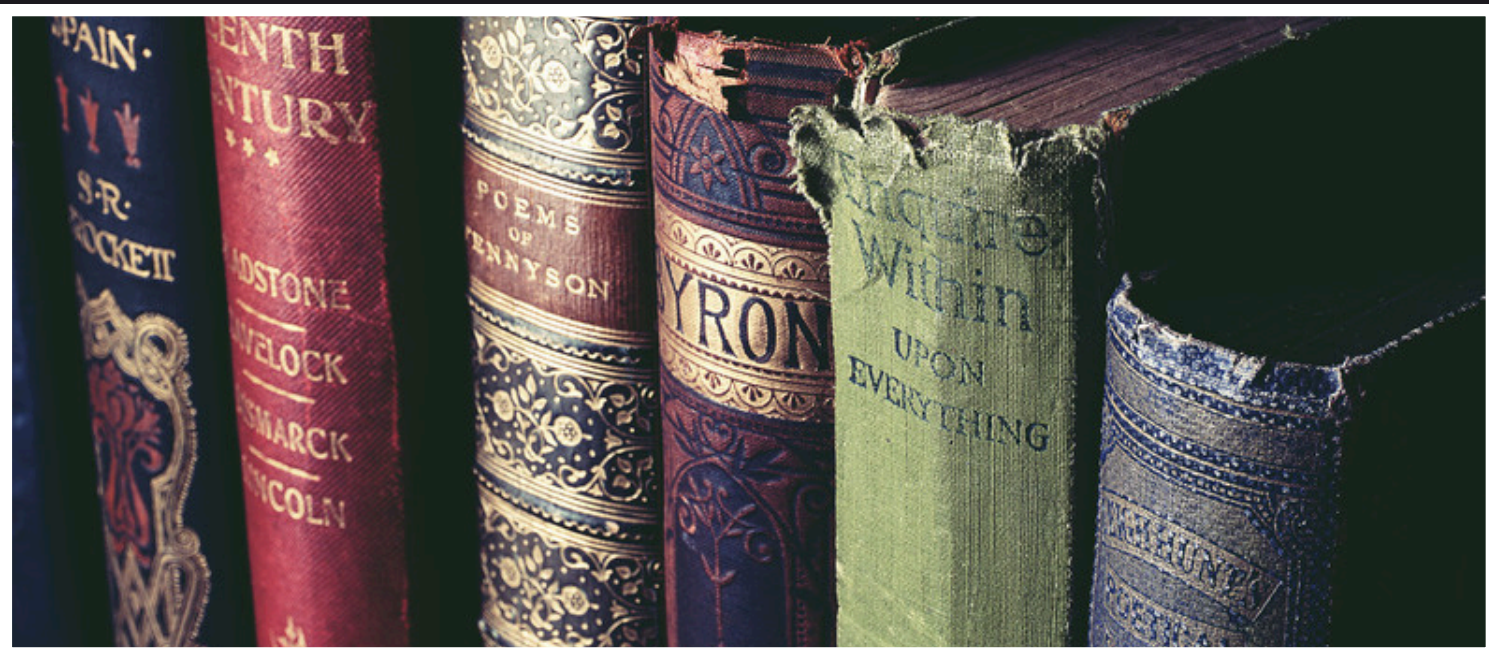

ETHICS AND PUBLICATION POLICIES

International Journal of Holistic Research Paradigms (IJHR)

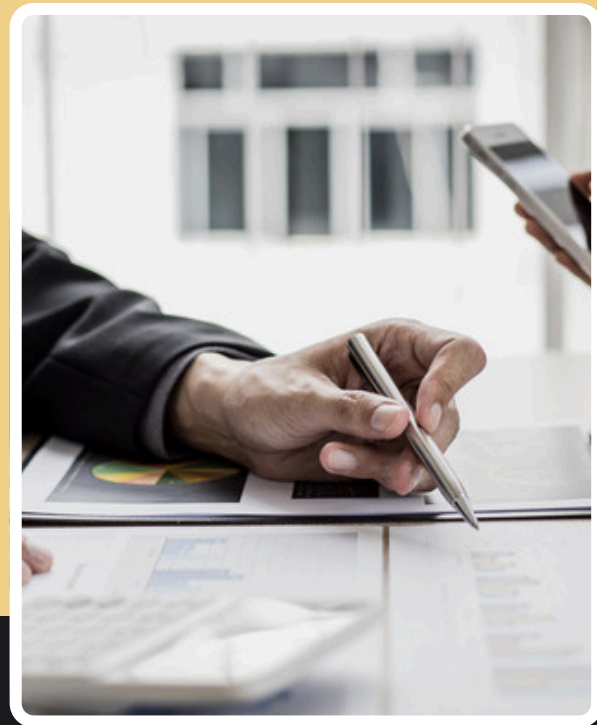

The International Journal of Holistic Research Paradigms (IJHR) is committed to maintaining the highest standards of academic integrity, transparency, and ethical publishing. All authors, reviewers, and editors are expected to adhere strictly to the ethical principles outlined below.

1. Publishing Ethics Compliance

Authors must comply with the Journal's Publishing Ethics Policy. Submissions must reflect honesty in research conduct, accurate reporting of results, proper acknowledgment of sources, and respect for intellectual property. The journal reserves the right to screen manuscripts using plagiarism-detection and policy-compliance tools to verify originality and ethical adherence.

SUBMISSION DECLARATION

2. Submission Declaration

By submitting a manuscript to IJHR, authors confirm that:

- The work has not been previously published, except in the form of a preprint, abstract, academic thesis, lecture, or registered report.
- The manuscript is not under consideration for publication elsewhere.
- All listed authors have approved the submission.
- Necessary institutional or regulatory approvals have been obtained where applicable.
- If accepted, the manuscript will not be published elsewhere in the same form or language without written permission from the copyright holder.

Any instance of duplicate, redundant, or concurrent publication may result in rejection or retraction.

3. Authorship Criteria

All authors must have made substantial contributions to:

- The conception and design of the study, or data acquisition, or analysis and interpretation of data.
- Drafting the manuscript or critically revising it for significant intellectual content.
- Final approval of the version submitted.

Authors must designate one corresponding author responsible for communication during the editorial process. All authors share accountability for the accuracy, integrity, and reliability of the published work.

CHANGES TO AUTHORSHIP

4. Changes to Authorship

Authorship changes after submission are strongly discouraged. Authors must ensure the accuracy and order of the author list at the time of initial submission.

Policy on Authorship Changes:

- All authors must be listed in the manuscript and submission system.
- Any addition, removal, or rearrangement of authors must be requested before acceptance and approved by the Editor.
- Requests must be submitted by the corresponding author with a clear justification and written consent from all authors involved.
- Changes after acceptance will only be considered in exceptional circumstances.
- Publication may be suspended while authorship changes are reviewed.
- Approved changes after publication will result in a formal corrigendum.
- Unauthorized authorship alterations may lead to rejection or retraction.

5. Editorial Integrity

The editorial team evaluates manuscripts solely on academic merit, originality, relevance, and ethical compliance. Confidentiality of submissions and fairness in peer review are strictly maintained. IJHR upholds ethical publishing not merely as a procedural requirement, but as a foundational commitment to credible, responsible, and globally respected scholarship.

POLICY ON THE USE OF GENERATIVE AI AND AI-ASSISTED TECHNOLOGIES

INTERNATIONAL JOURNAL OF HOLISTIC RESEARCH PARADIGMS (IJHR)

The International Journal of Holistic Research Paradigms (IJHR) recognizes the transformative potential of generative AI and AI-assisted technologies when used responsibly and ethically. AI tools may support researchers in improving efficiency, synthesizing literature, identifying research gaps, structuring manuscripts, and enhancing clarity of language. However, such tools must never replace human intellectual judgment, scholarly expertise, or critical evaluation.

1. Responsible Use of AI Tools

Authors may use generative AI tools to assist in manuscript preparation. However:

- AI must only be used as a supportive instrument, not as a substitute for human reasoning and analysis.
- Authors must exercise full human oversight, review, and control over all AI-generated outputs.
- The final manuscript must reflect the author's original interpretation, insight, and scholarly contribution.

2. Author Accountability

Authors remain fully responsible and accountable for:

- Verifying the accuracy, completeness, and neutrality of all AI-generated content.
- Carefully checking references, citations, and data, as AI-generated references may be incorrect or fabricated.
- Editing and refining AI-assisted content to ensure originality and academic integrity.
- Safeguarding data privacy, intellectual property rights, and confidentiality by reviewing the terms of any AI tool used.

AI tools must not be listed or credited as authors or co-authors, as authorship carries responsibilities that can only be fulfilled by human contributors.

POLICY ON THE USE OF GENERATIVE AI AND AI-ASSISTED TECHNOLOGIES

INTERNATIONAL JOURNAL OF HOLISTIC RESEARCH PARADIGMS (IJHR)

3. Mandatory Disclosure Requirement

If generative AI tools are used during manuscript preparation, authors must include a declaration at the time of submission.

A new section must be added before the References titled:
Declaration of Generative AI and AI-Assisted Technologies in the Manuscript Preparation Process

Example Statement:

“During the preparation of this work, the author(s) used [Name of Tool/Service] to assist with [specific purpose]. The author(s) carefully reviewed and edited the content and take full responsibility for the final published article.”

This declaration will appear in the published article.

No statement is required for the use of basic tools such as grammar or spell-check software.

4. Policy for Reviewers and Editors

To protect author rights and maintain confidentiality, IJHR currently does not permit reviewers or editors to use generative AI or AI-assisted technologies in the peer-review and evaluation process. All editorial decisions must be based solely on independent human expertise and judgment. IJHR encourages innovation in research practices while safeguarding academic integrity, transparency, and ethical responsibility in scholarly publishing.

CONCLUSION

INTERNATIONAL JOURNAL OF HOLISTIC RESEARCH PARADIGMS (IJHR)

The International Journal of Holistic Research Paradigms (IJHR) stands as more than a journal—it is a progressive intellectual movement dedicated to reshaping how research is created, shared, and valued across the globe. In an era where knowledge must be integrative, ethical, and solution-driven, IJHR provides a platform where disciplines converge, ideas flourish, and innovation finds its voice.

Guided by academic integrity, inclusivity, and excellence, IJHR promotes rigorous scholarship without financial barriers through its Zero Article Processing Charges (APC) policy. This commitment reflects our belief that intellectual contribution should be defined by merit, originality, and impact—not by cost.

We envision a research ecosystem where science meets society, technology meets humanity, and scholarship meets real-world transformation. Through interdisciplinary collaboration and holistic inquiry, IJHR empowers researchers, academicians, innovators, and thought leaders to publish work that addresses contemporary global challenges with clarity and purpose.

As we continue to grow as an international knowledge platform, we invite scholars worldwide to join us in illuminating new paradigms of research. Together, let us shape a future where research is accessible, ethical, impactful, and transformative.
